

Disable Sleep Settings

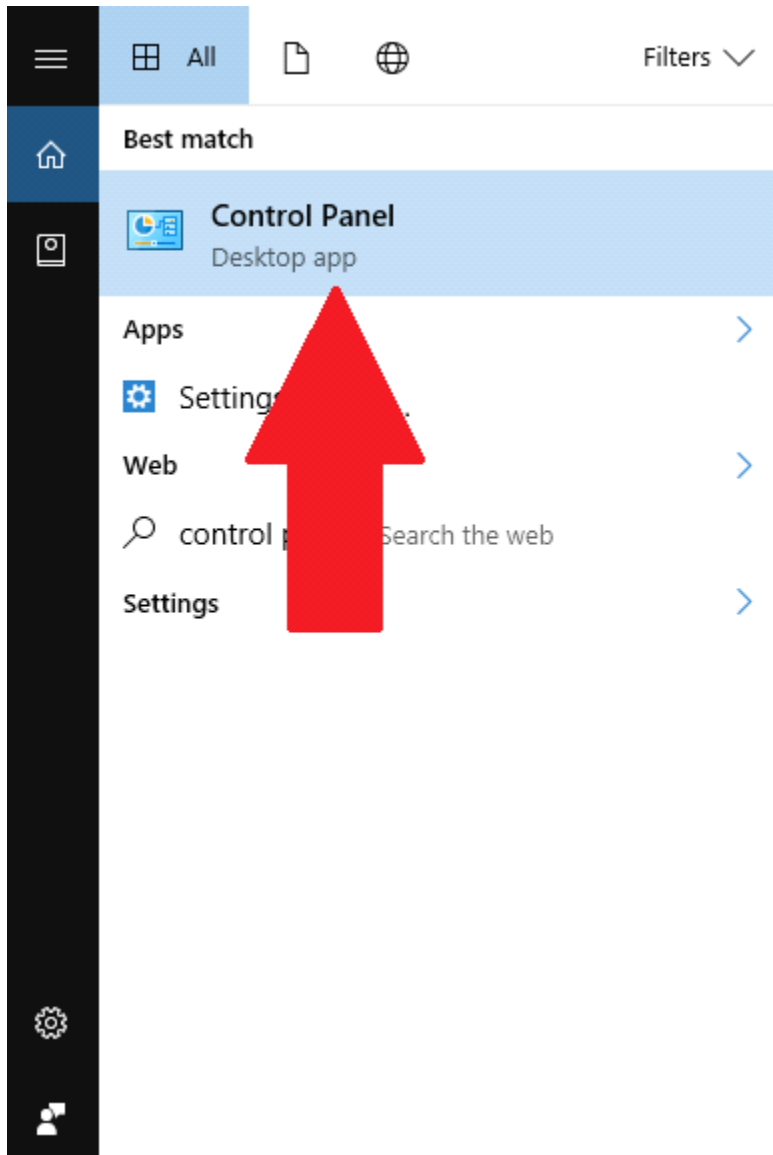

(1) Access the Start Menu by clicking the windows button in the bottom right corner of your desktop window.

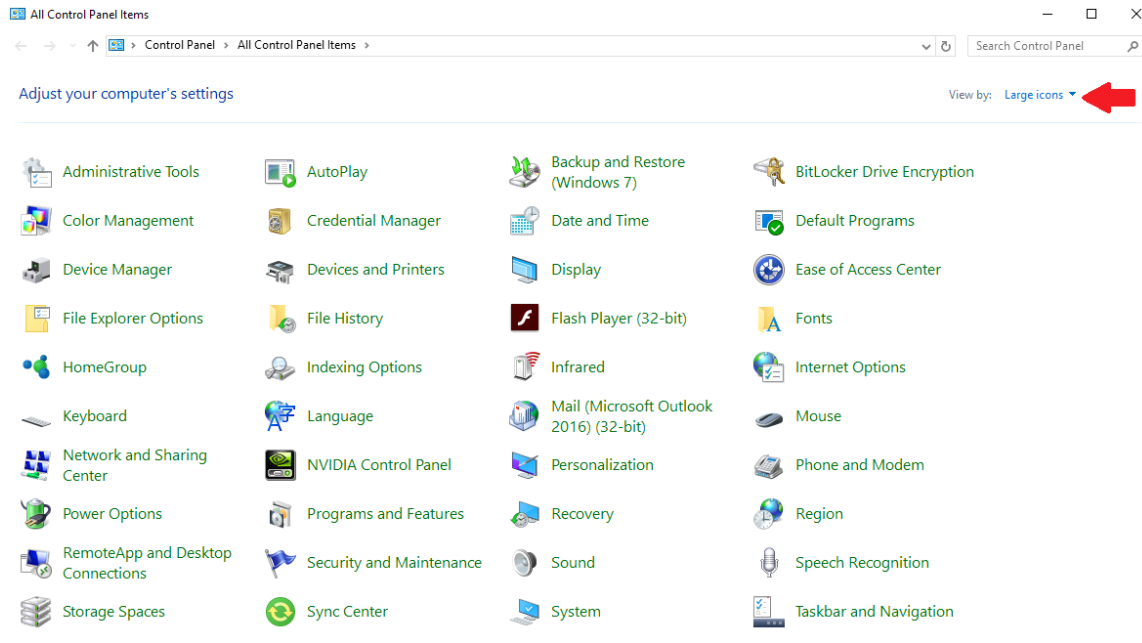

(2) On the Start Menu type **Control Panel** into the search box.

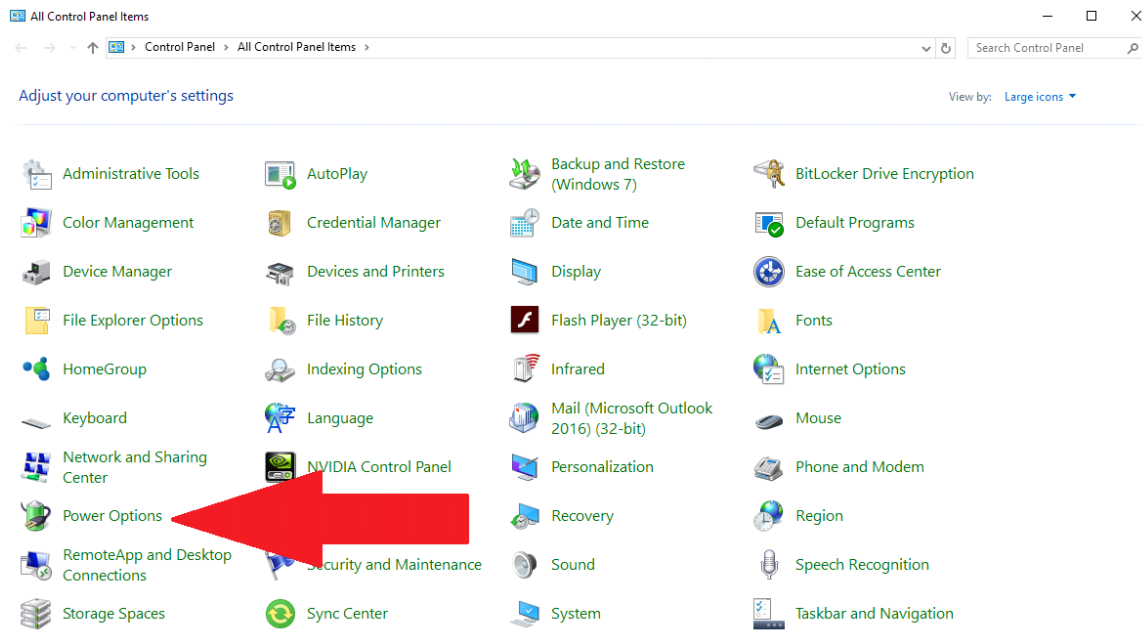

(3) The Control Panel Option should come up, please select it.

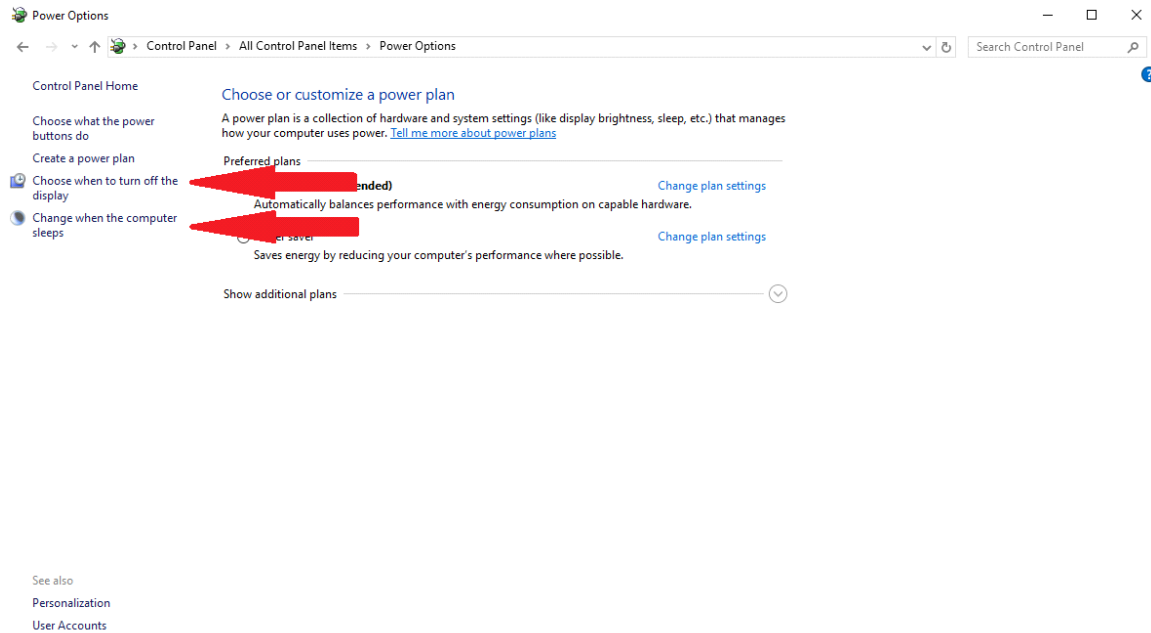

(4) Make sure you view by large icons in the top left of the window.

(5) Select Power Options.

(6) Selecting either "Choose when to turn off the display" OR "Change when the computer sleeps" will navigate you to the SAME settings window. Choose either of these options now.

(7) The tablet you are using will display more drop down menus than what is displayed here. Ensure that the setting is set to NEVER for ALL drop down menus.
