

Windows Updates

(1) Access the Start Menu by clicking the windows button in the bottom right corner of your desktop window.

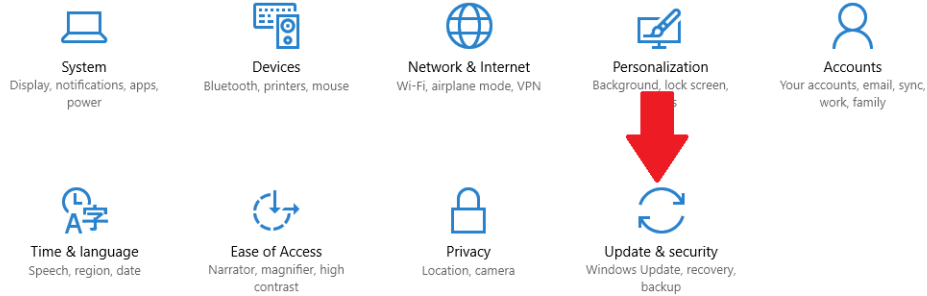

(2) On the Start Menu, Access the Settings page.

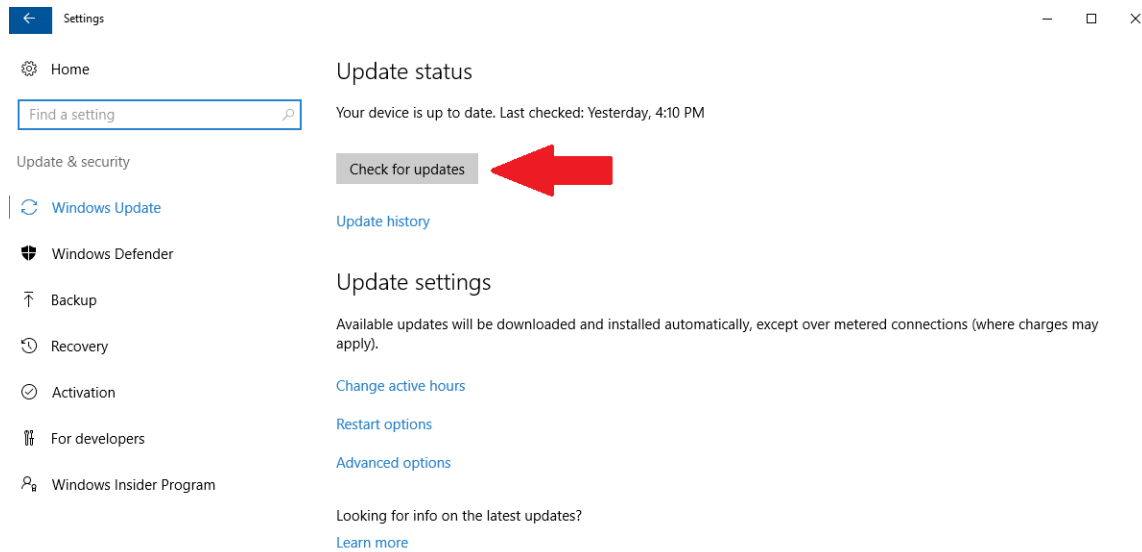

(3) On the Settings Page go to Updates and Security.

Windows Settings

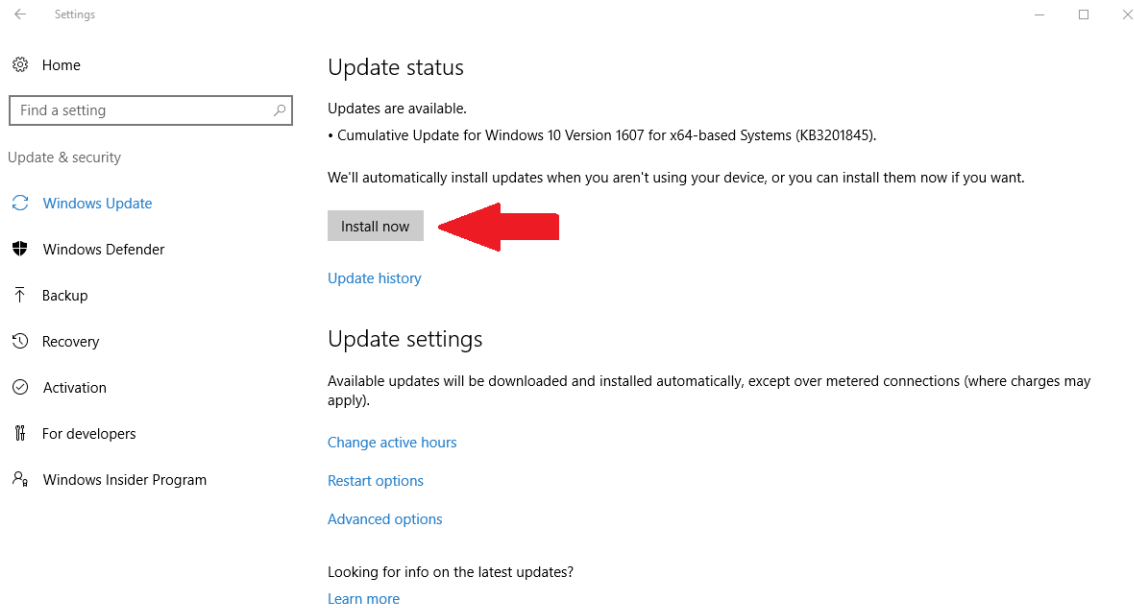

Find a setting

(4) Check for Updates.

(5) Install any updates.

(6) Restart Computer.

(7) Repeat Steps (4) through (6) until no additional updates are available. Then try again once more to be certain.
